## WHO AM I?

I am an Emmy winning producer and editor with well over ten years of experience with long-form unscripted and scripted projects for major cable and short form digital content. I have experience as a writer (scripts, voiceover, treatments), director (multi and single camera working with both known actors and non-actors), and team leader both in the production office and in the field. I bring to every project a collaborative spirit, work ethic and a gift for storytelling. As an editor, I am an expert with Avid and Premiere and have a reputation for being creative, fast and efficient.
